## EDUCATIONAL PHILOSOPHY OF THE SCHOOL DISTRICT

As a school corporation of Iowa, the Red Oak Community School District, acting through its board of directors, is dedicated to promoting an equal opportunity for a quality public education to its students. The board's ability may be limited by the school district's ability and willingness to furnish financial support in cooperation with student's parents and school district community. The board is also dedicated to providing the opportunity to develop a healthy social, intellectual, emotional, and physical self-concept in a learning environment that provides guidance to and encourages critical thinking in the students for a lifetime.

The board endeavors, through the dedication of the school district's resources, to encourage students, who come to the school district from a variety of backgrounds, to look forward to the time when they will have jobs, homes, families, places in the school district community, and attain recognition as individuals. In order to achieve this goal, the board will seek qualified employees dedicated to development of their professional skills for the betterment of the education program and for the expertise for educational productivity.

Instruction and curriculum are the key elements of a public education. Critical thinking and problem solving skills that will assist the students' preparation for life are instructed as part of a sequentially coordinated curriculum. The school district strives to prepare students for employment, to discover and nurture creative talent and to prepare them to meet and cope with social change in an atmosphere conducive to learning.

The support and involvement of the home and the school district community are essential to achieve educational excellence in the school district. The school district strives to maintain an active relationship with the home and the school district community to create within the students an awareness of dignity and worth of the individual, civic responsibility and respect for authority.

## LONG-RANGE NEEDS ASSESSMENT

Long-range needs assessment enables the school district to analyze assessment data, get feedback from the community about its expectation of students and determines how well students are meeting student learning. The board will conduct ongoing and in-depth needs assessment, soliciting information from business, labor, industry, higher education and community members, regarding their expectations for adequate student preparation.

In conjunction with the in-depth needs assessment of the school district, the board will authorize the appointment of a committee, representing administrators, employees, parents, students and community members, to make recommendations and assist the board in determining the priorities of the school district in addition to the basic skills areas of the education program.

At least every five (5) years the board shall conduct an in-depth needs assessment, soliciting information from parents, students, business, labor, industry, higher education, and community members, regarding their expectations for adequate student preparation. One purpose of this assessment is to assist the board in developing and evaluating a statement of philosophy for the school district. The second purpose of this assessment is to determine the areas of student performance, knowledge, and attitudes and the areas of school district operations which are judged to be the most crucial in meeting school or school district goals. As part of its assessment, the board shall develop a process for communicating with business, industry, labor, and higher education regarding their expectations for adequate student preparation. The statement of philosophy shall describe the board's beliefs about topics which shall include the nature of learning, the purpose of the school district, the scope of educational experiences that the school district should provide, the nature of its learners and a description of a desirable learning atmosphere.

It is the responsibility of the superintendent to ensure the school district community is informed of students' progress on state and locally determined indicators. The superintendent will report annually to the board about the means used to keep the community informed.

As a result of the board and committee's work, the board will determine major educational needs and rank them in priority order; develop long-range goals and plans to meet the needs; establish and implement short-range and intermediate-range plans to meet the goals and to attain the desired levels of student performance; evaluate progress toward meeting the goals and maintain a record of progress under the plan that includes reports of student performance and results of school improvement projects; and annually report the school district's progress made under the plan to the committee, community and Iowa Department of Education.
