

# GOOD NEWS FROM MIDDLE SCHOOL

6<sup>th</sup> graders dissected chicken legs to help learn about body structure and systems. They will soon be dissecting frogs!

**ROMS School Beyond School students went on a bowling outing with our ROHS Bowling Team. Our students enjoyed the experience and tips they received from their high school mentors. It sounds like some of our high school students saw some bowling potential in our upcoming bowlers!**

**In January, ROMS also completed a climate and culture survey to help determine strengths and weaknesses that we need to address. The Lead Team will be digging into that data in the coming month, updating building goals, and determining next steps in our ongoing process to improve the learning environment of our students.**

# More Good News From Middle School

ROMS kicked off a Week of Kindness with visits from Board President, Mark Johnson, Red Oak Police Department, Fire Department & EMTs. Unfortunately, some of them got called out while they were with us and were not able to be in the picture. We enjoyed having special guests to meet and greet us every morning of the week, however, and hope the kindness was passed along! A very big thank you to our Student Council and their sponsors, Mrs. Rea and Mrs. Confer, for helping us remember how much kindness matters! (Due to timing, we only have pictures from the first day in the newsletter. Please see our Facebook page for pictures from the rest of the week!)

## Happy Valentines Day
