Re: Compressor Replacement on RTU at Washington

Ray Martin Company is pleased to provide you with the following quote. Work will include the installation of a new compressor for the roof top unit at Washington

Job Scope

- Schedule project with customer
- Schedule and coordinate crane
- Recover all refrigerant from circuit
- Remove failed compressor
- Install new OEM compressor (NOT a rebuild)
- Install 2 new OEM contactors for compressor
- Install new liquid line drier
- Install new crankcase heater
- Evacuate system.
- Charge system with recovered refrigerant
- Start unit and check operation

The above listed work will be completed for the investment of\$14,740.00
(Fourteen Thousand Seven Hundred Forty Dollars & 00/100)

Above listed project does not include any taxes or freight. Any additional repairs that may be required will be billed accordingly.

Compressor comes with one (1) year parts only warranty. An extened warranty that covers from year two (2) through year five (5) is available for an additional \$2,200.00
