

Summary of SIAC Recommendations 3-24-21

Would like to meet more often and be more involved - perhaps plan 1 in fall and 1 in spring.

Want more information.

Next time, have name tags with their group assignment listed on it.

Next time do a better job of getting a variety of members.

Academics

Family Engagement - meaningful engagement on their child's learning

Transition

Communication

Rigor & High Expectations

Climate & Culture

K-12 SEL Plan

Operations and Innovation-

- a) Would like the school board to consider partnering with SWCC and community partners (businesses) for hands-on trades education and employment opportunities (applications, various technical or vocational training/schools, etc.).
- b) Would like to see a life skills continuum of curriculum K-12. This appeared to be related more to a series of events as opposed to "courses."

Examples:

- 1) Career nights
 - 2) College nights
 - 3) Money matters events, presentations
 - 4) Social Skills & how to treat and communicate with others
 - 5) Community Service days/events
- c) Outdoor facilities need a improvement plan
